### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance:

Regarding independent claim 8, the prior art of record does not show a document image processing device comprising the limitations "overlapping detecting unit detecting character regions whose matching degrees are high by making a comparison between positions and sizes of the respective character regions extracted by said character region extracting unit, and detecting an overlapping of the plurality of document images based on positions of the detected character regions whose matching degrees are high; and image merging unit merging the plurality of document images at an overlapping position detected by said overlapping detecting unit, wherein said overlapping detecting unit detects an overlapping position sequentially from a direction with a higher priority among a plurality of detection directions" in combination with other limitations of the claim.

Regarding independent claims 15-16, 32-35, and 38-40, the prior art of record does not show a document image processing device comprising the limitations “region judging unit comparing between the number of line images containing only character images in the plurality of regions vertically partitioned and the number of such line images found in the plurality of regions horizontally partitioned, and judging the plurality of regions that hold more line images found to contain only character images as a low graphic-ratio region; overlapping detecting unit detecting an overlapping position between the first and second document images, based on positions of character regions whose matching degrees are high by making a comparison between a character region of a line image in a region judged as a low graphics-ratio region by region judging unit and a character region of a line image in a corresponding region of the second document image” in combination with other limitations of the claims.

The claims are not addressed are allowed because they are dependent of the allowed independent claims.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
